PROBING THE SYNDICATES

Operations of the Equitable Life Assurance Society

A CLEVELAND LETTER

Says Trustees Will Welcome Any Aid In Their Work From Investigation

New York, Sept. 22.—The syndicate operations of the Equitable Life Assurance Society were taken up by the Insurance Investigating Committee today and consumed the entire afternoon session.

Henry B. Winthrop, assistant secretary and financial manager of that society, was called to the stand and stated, as far as he was able, the transactions of a syndicate styled "J. H. Hyde and Associates." One of the operations was in Atlantic Coast Line bonds, in which "J. H. Hyde and Associates," the Equitable, purchasing as a member, paid \$1,376,096 on call, and received \$664,405 profits.

Mr. Winthrop said there was nothing on the Equitable books to show who the "associate" were, nor what was Mr. Hyde's personal profits.

The Equitable participated also in the Union Pacific syndicate in the name of J. H. Hyde, and when asked by what authority the society assumed the responsibility of Mr. Hyde's personal operations, Mr. Winthrop produced the minutes of the finance committee in July, 1905, showing a written assignment to the company by Mr. Hyde of his interest in the syndicate. The society has paid into that syndicate \$1,670,000. Mr. Hughes read a long letter from Grover Cleveland, who is trustee for the policy holders in the Equitable, under the Thomas F. Ryan trust agreement. The letter was offered in evidence.

Mr. Cleveland detailed the progress of the trustees in mutualizing the company, and said:

"Obstacles that lie in the path of the proposed mutualization are so inherent that with the greatest study and care they can only be overcome."

"In common with all others who desire the best conditions in this important field of business, where people have so much at stake, the trustees for the policy holders of the Equitable Society will gladly welcome any aid in their work which may result from the labors of your committee."

At the morning session Thomas A. Buckner, vice-president of the N. Y. Life Ins. Co., described the agency system of the company and methods of paying bonuses.

New York, Sept. 22.—The World today received a cablegram from Andrew Hamilton of Albany, who is in France, to the effect that the \$100,000 received by him from the New York Life Insurance Company in March, 1904, as related by President McCall before the investigating committee, was not used for influencing state legislation.

Hamilton reached Barritz yesterday after completing an automobile tour through the south of France.

Before the legislative committee investigating the life insurance business Thomas A. Buckner, vice-president of the New York Life, who has charge of that company's agencies, today explained the system of bonuses paid agents. The "nilie," he said, was a body drawn from the ranks of agents who create business for his company. Buckner said that the money agents get from the "nilie" was in addition to the regular agent's commission.

The witness stated that the cost of the "nilie" is 1 per cent of the renewal premium.

Buckner said the "nilie" was invaluable in holding agents.

THE COPPER QUEEN IS IN THE LEAD CUBAN RIOTS FATAL

(Special to Review.)
Phoenix, Sept. 22.—The matter of the raises ordered by the Territorial Board of Equalization at its August meeting will come up for hearing before the Supreme Court on Wednesday, September 27.
The Copper Queen Company today filed a suit for a writ of certiorari against the Board of Equalization, made returnable on that date, to show cause why the raised assessment on patented mines should stand. The bill and complaint detail the Board's action at the August meeting, and attacks the legality of the order, because it acted in a judicial capacity, contrary to law. The complaint also attacks the action of the Board in other counties on all property.
Several of the prominent lawyers of the territory will be here on that date to appear before the Supreme Court and argue pro and con regarding the action of the Territorial Board of Equalization. The full Supreme Court will be present, consisting of Chief Justice Kent and Associate Justices Sloan, Doan, Tucker and Campbell.

AGREEMENT IS REACHED AN ILLEGAL OPERATION

Between Germany and France Regarding Morocco

Paris, Sept. 22.—Information obtained from a well informed source is to the effect that Dr. Rosen, the German minister to Morocco, and M. Revell, representing France, reached a complete agreement on all disputed points of the Moroccan question in the course of their conference today.

Both parties are entirely satisfied with the arrangement.

Premier Rouvier and Prince von Radolan, German ambassador to France, met at the foreign office after negotiations had reached an accord, and conversed most cordially.

It is understood that Dr. Rosen and Premier Rouvier will meet tomorrow in order to formulate and sign definite terms of agreement relative to the program to be discussed at the international conference on reforms in Morocco.

The above may not be regarded as official, but the source from which the information came leads to the belief that lengthy "pour parlers" are now concluded, and that accord merely waits signatures of representatives of the two governments.

MINING CONGRESS TURNS ATTENTION THERE.

Letters in Spanish Will Be Sent Out by Press Committee to Mines and Smelters in Southern Republic Advertising National Meeting.

Another method of advertising the American Mining congress, which should be as effective as any now in use and serve to bring the congress to the immediate attention of the miners and persons interested in mining in the south was discussed and decided upon yesterday at the meeting of the press committee of the congress.

This plan is to send out printed slips, one side in Spanish and the other in English, to the smelters and mines of the surrounding country.

The party to whom they are mailed will be requested to use the slips, which tell briefly of the mining congress to be held here in November and invite the reader to attend, in their correspondence. In this manner it is hoped to reach the people who do business with mine owners, miners and mining men and to enlist their personal interest in the congress. Chairman Slater, of the committee, outlined his plans in this respect, which were readily approved by the members.

The chairman also told of the success that had attended the committee's work in sending out news matter concerning the Southwest and its mines, with a brief mention of the coming congress to be held in El Paso. Papers in all parts of the country had printed the stories, many of them finding positions on the first page, and in this way El Paso is deriving much advertising that will be of benefit to the city and congress.

Circular letters are also being sent out to commercial organizations and promoting clubs in Mexico, printed in Spanish, imparting interesting information. Personal invitations are also to be sent out where it is thought they will have the effect of bringing desirable persons to El Paso during the congress.

The committee adjourned after reviewing the work that has been done and deciding upon the above outlined plans for additional advertising the coming gathering. Another meeting will be held next Thursday—El Paso Times.

Government takes a Hand in Recent Drunken Orgies

Phoenix, Sept. 22.—Assistant United States Attorney C. I. Reynolds was in the city from Tucson today. He will leave tonight for the north his destination being Holbrook.

During the recent "sun dance" by the Indians there a lot of the redmen got howling drunk. The United States government has learned of the affair and Mr. Reynolds is going to Holbrook under instructions of the government to investigate the affair very thoroughly with a view of ascertaining who is responsible for the Indians' drink.

It is said the fire water was furnished to the ranchers near Holbrook and if this proves true it is likely that the offenders will land in Yuma. Their offense would come under the head of furnishing liquor to Indians who are under control of the United States government. If Mr. Reynolds can get proof that it was the ranchers or any one else, for that matter, they will be vigorously prosecuted.

Political Leader is Shot Down In a Hotel

TROOPS SENT TO SCENE

Feeling in Havana Intense by Liberalists Against the Government

Havana, Sept. 22.—Official dispatches received today from Cienfuegos announced the killing of Congressman Enrique Villuendas, leader of the Liberal party, and the most able orator in the lower house, and the chief of police of Cienfuegos during a conflict between adherents of the two political parties, the Liberals and Moderates.

Government advisers say the police had information that within the hotel in which Villuendas resided a quantity of arms had been deposited, and they went to the hotel to investigate the matter.

As the police ascended the stairs they were met by a party of Liberals, who fired on them, killing Chief of Police Villuendas. The police returned the fire, killing Villuendas and wounding several others. Intense excitement prevails at Cienfuegos and Havana.

As the news spread throughout Havana the Liberals and Moderates began rapidly gathering in their respective clubs, and it is feared that unless the leaders give wise counsel a clash may result tonight.

A dispatch to the Associated Press from Cienfuegos says that six persons were killed and twenty-five wounded during the conflict.

Dispatches to the government say that besides the two named two other policemen were killed and a number of policemen and civilians were wounded. One telegram says that Villuendas fired the shot which killed the chief of police, while according to another telegram the shot was fired by Jose Fernandez, Liberal, who has been arrested.

A search of the hotel revealed two dynamite bombs in the room occupied by Villuendas. The police inspecting the hotel were carrying out the order of a judge, who was informed that explosives were hidden there. The government has received a telegram from Senator Ferras asking it to send reinforcements at once.

The telegram states there are fears of dynamite bomb throwing.

Acting on the advice of Senator Ferras, the government this evening sent a train of five cars loaded with rural guards, the largest number of whom are destined for Cienfuegos, while others will be distributed in Matanzas and Santa Clara, where advices received by the government indicate serious trouble may occur at any time.

The train also carries artillery, and the troops are supplied with 13,000 rounds of ammunition.

The feeling in Havana tonight is most intense. The Liberals are bitterly denouncing the government, saying they have received no advices from Cienfuegos, because the government will not permit of the use of either the government cable or telegraph lines.

Gen. Jose Miguel Gomez, governor of Santa Clara province, the Liberal candidate for the presidency, arrived here tonight. According to report the governor declared that an attempt was made to assassinate him in his official residence.

Advices to Cuban Minister.

Washington, Sept. 22.—Senator Quesada, Cuban minister, tonight received a dispatch from Secretary of State O'Fallon, giving the official version of the trouble at Cienfuegos. The dispatch said the chief of police was carrying out the order of the court to examine the premises of Hotel Lasuia, in Cienfuegos, when Villuendas fired on him.

Speaking of the trouble at Cienfuegos, Minister Quesada pointed out that it was entirely local in character, and was an incident common to popular elections.

Villuendas, M. C., who was killed, was a young man of great promise. He was less than 30 years old, and had been Colonel in the Cuban army, prosecuting attorney under the military government, and a member of the constitutional convention.
